User Experience Designer/Developer

EDUCATION

August 2016 – May 2020
Bachelor of Science in Informatics
Indiana University, Bloomington, IN
Minor: Human-Centered Computing
Cumulative GPA: 3.46 / 4.0

WORK EXPERIENCE

Undergraduate Instructor for Information Infrastructure
August 2019 – May 2020 | Bloomington, IN

- Held conversations about course material with students, ensuring they could apply class material over coursework and labs, for **3** office hours a week

- Lead lab sessions for **30** students weekly to help students be fully prepared for homework, quizzes, and exams

Undergraduate Instructor for Discrete Mathematics
August 2018 – May 2020 | Fort Wayne, IN

- Held conversations about course material with students, ensuring they could apply class material over coursework and labs, for **4** office hours a week

- Assisted lab sessions with peers for **60** students weekly to answer questions so they can be fully prepared for homework, quizzes, and exams

PROJECTS

ReceiptX
Academic Project | 8 month duration

- Adapted to project requirements by actively learning new skills, allowing it to be completed on time

- Collaborated with team members by having weekly discussions about our progress, allowing us to figure out what needs to be completed

African Rhino Hammer
Academic Project | 2 month duration

- Discussed with team members weekly about the concept ideas, allowing a better version to be brainstormed

- Analyzed Black Panther by watching it, gaining a deeper understanding of how the creators integrated African culture in the film
